STREET CAR STRIKES

Latest News About Troubles at Cleveland and Brooklyn.

RANKS OF MEN SWELLED.

In Forest City the Linemen Join Issues With Conductors and Motormen. Non-Union Men Won Over In Brooklyn.

Cleveland, July 18.—The second day of the renewed strike on the Big Consolidated Street Railway system opened quietly.

The tracks were not obstructed during the night as had been the custom during the previous strike and the company began running cars at irregular intervals over the Euclid avenue, Wade Park avenue, Cedar and Wilson avenue cross town lines. The strike is spreading. The linemen who repair the trolley wires, an important factor in operating electric cars, joined the strikers. During the last strike they did not quit work, but were kept busy repairing the wires which were cut. Just what the company will do is not known. Linemen are scarce. All the linemen who are out are members of the Cleveland Electrical Workers' union.

An effort, it is said, will be made to bring out the powerhouse employees.

Mr. Bishop of the state board of arbitration arrived in town and will attempt to arrange a meeting between the company and the men. Indications at noon were that the state board of arbitration would be repulsed by the strikers; that its services in settling the strike would be absolutely refused.

President Bryan, of the union, was asked whether the union would arbitrate, either through the state board or otherwise. "What is there to arbitrate?" was his reply.

Mr. Bishop called on President Everett of the company, but did not accomplish anything. He believes if the opposing sides do not get together the state board will force a public investigation.

Merchants claim that the last strike cost them \$100,000 and are now talking of establishing business lines to parallel the Big Consolidated tracks.

Twenty non-union motormen and conductors have reached here from Chicago.

SITUATION AT BROOKLYN.

The Strikers Win a Number of Non Union Men.

New York, July 18.—The Brooklyn street car strikers evidently won over a number of non-union men in their ranks during the night. The Putnam avenue line, over which the cars had been running on schedule time for the last few days, was crippled certainly, one-third of the cars being tied up. On the Fulton street car line, which ran on nearly schedule time previously, the number of cars was reduced about one-third. No cars were running on the Nostra and the Tompkins avenue lines.

President Clinton Clinton L. Rossiter, of the Brooklyn Rapid Transit company, said that they would begin running cars on all the lines.

"The strike," he said, "I think is ended, but I am not exulting over the situation. I gave the men until 6 p. m. to return to work, but if any of the superintendents should disobey my orders as to time and should take back some of our old employees I should not feel sorry. In fact, I should be glad to have the superintendents use some discretion in the matter. Many of the men who went out on a strike are known to have done so much against their best judgment and were at heart loyal to the company, but they wished to be at peace with their fellows, so went out to keep peace in the family, as it were."

Asked if it was true that he had imported 300 men from Philadelphia to take the place of strikers, Mr. Rossiter replied: "No, not 300, but about 40 were sent us and we employed them."

General Master Workman Petersons said: "I consider the position of the strikers as becoming stronger every hour. President Rossiter's statement that there is no strike in Brooklyn is hardly sustained by the evidence visible to everybody."

Dewey Accepts the Invitation.

New York, July 18.—A dispatch from Trieste, Australia, says Admiral Dewey has accepted the banquet offered him by United States Minister Harris, who has invited all the American consuls and vice consuls in Austria and Hungary with their wives to meet him. The admiral wires that he has quarantined his flagship since she left Colombo, Ceylon, and has had no communication with shore, so he can land with a clean bill of health immediately on arrival.

BIG STEEL CONTRACT.

Pressed Steel Car Company Contracts With Carnegie Company.

Pittsburg, July 18.—The Pressed Steel Car company has contracted with the Carnegie Steel company for 30,000 tons of steel plates monthly for a period of 10 years. This is the largest steel contract ever awarded to one firm and amounts to about \$1,000,000. A representative of the Pressed Steel Car company said that the actual cost of the material to be furnished will be between \$75,000,000 and \$80,000,000 a year. The delivery of the contract will begin August 1.

Recommended the Changes.

Pretoria, July 18.—The Volksraad resumed discussion of the franchise bill at its session. The trend of the debate favored seven years retrospective and prospective franchises. Replying to a question, President Kruger reviewed the Bloemfontein conference and said that the proposals of Sir Alfred Milner, governor of Cape Colony and British high commissioner of South Africa, were too wide, but that alteration from nine to seven years was only a slight difference and for reasons of honesty and righteousness he (President Kruger) recommend that alteration which would meet the English objections. The country, he added, would not be endangered thereby, but would gain the applause of the world.

One Bondsman Released.

Omaha, Neb., July 18.—Judgment was rendered in the district court for the state and against all the bondsmen of ex-State Treasurer Bartley except Mrs. Mary Fitzgerald, of Lincoln. Mrs. Fitzgerald was released from liability on the ground that she was temporarily of unsound mind at the time she signed the bond. The judgment is for \$643,382.45, of which \$555,790.66 is the principal of Bartley's defalcation and the remainder is interest. A motion for a new trial will be filed. Bartley is now serving a 20-year sentence for embezzling the money.

Illinois Flyer Wrecked.

St. Louis, July 18.—The southbound flyer on the Illinois Central railroad, which left here at 9 a. m., was wrecked at Lenoir, Ill., 33 miles from here, resulting in the death of Fireman Thomas Jones and the injury to the following four passengers: A. J. Elfin, St. Louis, internally hurt; W. B. Wilson, Chicago, badly scalded; O. G. Canner, St. Louis, scalded; Master Mechanic Beckwith, of the Illinois Central, bruised. The cause of the accident is unknown.

Tired of Rule of Tagals.

Manilla, July 18.—The natives of the provinces of Albay, South Camarines and North Camarines are endeavoring to throw off the domination of the Tagals. It is reported that there has been fighting between the people of the provinces named and small bands of Tagals who were quartered upon them, running the local governments, and that the people in question are willing to declare allegiance to the United States when the troops are sent to protect them.

Message From Otis.

Washington, July 18.—The following cablegram has been received from General Otis at Manilla: "Continued heavy rain, cyclonic storms impede business in harbor; Colorados sailed on transport Warren; Private Horne and Wilder, company G, left sick. In addition 130 discharged and various organizations took passage. Californians on Sherman arrived from Negros; vessel must be coaled; await subsidence of typhoon now prevailing."

Died in Cuba.

Washington, July 18.—The following has been received at the war department from General Brooke at Havana: "Death report, 16th, Quemados, William Neary, company B, Seventh cavalry, typhoid, died 15th. Puerto Principe, Sergeant William Lappin, company F, Fifteenth infantry, died at Ciego de Avila 14th, pernicious malarial fever; unassigned recruit, John Fitz, Fifteenth infantry, died 14th, yellow fever."

Silver From South America.

Philadelphia, July 18.—What probably is the first cargo of silver and silver ore brought from the west coast of South America to Atlantic coast port of this country has reached the British steamer Krentzner. Stowed away in her hold are 16,239 sacks of high grade ore and 600 bars of pig silver valued at over \$150,000 besides an assorted cargo worth \$160,000 more.

Important Cabinet Meeting.

London, July 18.—Considerable importance is attached to cabinet meeting as it is understood that the colonial official issued to the ministers an important communication relative to South Africa. The general trend of the news from that country points to a peaceful settlement of existing difficulties there.

ROUND ROBIN IGNORED

Complaint of War Correspondents Produces No Change.

NO OFFICIAL RECOGNITION.

Cabinet Members Allow General Otis to Deal With the News Gatherers in Philippine Islands as He Deems Best.

Washington, July 18.—The cabinet meeting was longer than usual and the members were more reticent than usual.

Secretaries Gage, Wilson, Alger and Attorney General Griggs are out of the city. It was admitted that there was some discussion of the "round robin" sent by the American correspondents from Manila via Hongkong. It was ascertained that the decision was reached to allow the "round robin" matter to drop.

At the formal conference held at the White House the subject was thoroughly discussed and such a policy agreed upon. This, it is stated, was confirmed at the cabinet meeting. Officially the matter will be ignored and General Otis will be allowed to treat it as he may deem best.

NO ATTENTION

Will Be Paid by Officials to War Correspondents' Round Robin.

Washington, July 18.—It was stated at the war department that no attention would be paid to the "round robin" of the Manila correspondents. The protest was not sent to General Otis and it is said will not be, and General Otis will not be called upon for an explanation. In addition to this it was intimated that very encouraging news had been received from the Philippines and that the situation was much better than had been generally believed.

The "Round Robin" Incident.

Washington, July 18.—A member of the cabinet is quoted as follows: "Either Major General Otis or the newspaper correspondents must go. To deport the correspondents will probably be accepted at home and abroad as a return to the old Spanish method of muzzling the press. To relieve Major General Otis will mean an official acknowledgment of his failure and a demoralization of military discipline." The above statement was made when the member of the cabinet was asked to discuss the problem which confronts the administration as a result of the publication of the newspaper correspondents' "round robin" protesting against the course of General Otis.

VALENTINE SENTENCED.

Cashier Given Six Years For Embezzling Bank Funds.

New York, July 18.—George M. Valentine, cashier of the suspended Middlesex county bank at Perth Amboy, N. J., was sentenced to six years in the New Jersey state penitentiary at Trenton for misappropriation of \$130,000 of bank funds.

Tank Steamer Burns.

Halifax, July 18.—The Standard Oil company's tank steamer Maverick, which arrived Saturday from New York with a cargo of oil, is sunk in the harbor. When the pumping of the oil from the ship's hold to the oil tank on the shore was commenced a 6-inch pipe connecting the tanks burst, and the oil flowed down into the engine room and became ignited. An explosion followed which blew a hole in the ship's side. She careened and gradually filled with water and sank. She now lies submerged, only her masts being visible. About two-thirds of the cargo remained in the vessel at the time of the disaster, and this was destroyed.

Freight Wrecked.

Muskegon, I. T., July 18.—At Weybark, on the Missouri, Kansas and Texas railroad, a freight train in charge of Engineer McCune of Parsons, Kan., was wrecked and McCune killed. The switchlock had been battered to pieces, the switch turned, and the light taken up the track a short distance, signaling a clear track. It was doubtless the work of men who had intended to derail and rob the passenger which preceded the freight.

Negro Miners Stampeded.

Birmingham, Ala., July 18.—The Georgia negroes imported to Ishkooda mines to take the place of strikers have stampeded from that place as the result of the assassination of one of their number and the wounding of four others Saturday night.

Shamrock Wins.

Southampton, July 18.—The Shamrock won easily, arriving at the finish line at 3:46. The Britannia finished the course 13 minutes behind the challenger for the America's cup.

FATAL COLLISION.

Passenger and Freight Trains on Norfolk and Western Meet.

Columbus, O., July 18.—A terrible head-end collision occurred on the Norfolk & Western road between an extra freight south bound and Norfolk express No. 3, due in Columbus at 8:30 a. m. The passenger train was running on time, and when within a mile of Haverill, a station near Iron-ton, it encountered an extra freight which had pulled out of Haverill in the face of the approaching passenger train against orders.

The killed and injured are as follows: George Sloan, freight engineer, killed; Henry Egbert, passenger fireman, killed; John Twifflinger, freight brakeman, killed; "Spot" Gimby, passenger engineer, fatally hurt; A. W. Tipton, freight fireman, seriously hurt.

The wreck was caused by the crew of the freight having gone to sleep on the siding at Haverill, where they had been ordered to let No. 3 pass. The passage of a freight awakened the crew, which, having no time, supposed it to be No. 3 and pulled out. The freight had not gone a mile before the collision occurred.

The Ohio Situation.

New York, July 18.—Congressman Charles H. Grosvenor, of Ohio, who will sail for Europe, said: "There is little to be said about the political situation in Ohio. It can hardly be said that there is a situation in the gubernatorial race as yet, because the Democrats have not had their convention. I suppose John R. McLean will be their nominee for governor. I can say though that all the unhappiness there is not confined to the Republicans. The Democrats have factional troubles of their own."

Destroyed by Fire.

Cincinnati, July 18.—The casting plant at the Addyston Pipe and Steel foundry was completely gutted by fire near North Bend and everything except the standing cranes and the walls of the buildings destroyed. Several freight cars standing on a siding were consumed. The works have been running night and day and 200 men were at work when the fire began. The loss is estimated at \$100,000. Well insured.

Dusenbury Is Dropped.

Columbus, O., July 18.—By a vote of 15 to 3 the city council passed a resolution of impeachment, dismissing Director of Public Safety Dusenbury from office on account of negligence and extravagance in office. Mr. Dusenbury refused to give up his office.

New Incorporations.

Columbus, O., July 18.—The S. M. York company, Cleveland, capital stock \$50,000; changing location of the Thorpe & Kile company from West Farmington to Akron, O.

Suspender Saved His Life.

New Orleans, July 18.—A pair of suspenders saved the life of Charles L. Rockel, runner for the Metropolitan bank. Rockel had just entered the bank to begin his duties when Engelhart Bieber, a discharged soldier of the Second Louisiana slipped up behind him and, taking deliberate aim, fired. The bullet struck the junction of Rockel's suspenders and carried it into his back. When the suspenders were pulled from the wound the bullet came out with them. Bieber says when he went to the war he gave his deposit book for \$805 to Rockel, and that the latter drew out the money and refused to return it to him. Rockel is painfully wounded.

Yellow Fever Situation.

Santiago de Cuba, July 18.—The yellow fever situation continues to improve. One death was officially reported. The victim was a soldier in the hospital at Boniato camp. Only one new case is reported for the day. This is a volunteer nurse in the yellow fever hospital, who was supposed to be an immune. On Saturday last two cases developed in the city proper. The sufferers are American employees in the local asphalt company.

Want a Civilian Day.

New York, July 18.—A great number of suggestions as to method of making the reception to Admiral Dewey a success have been received by General Butterfield and other members of the executive committee. One that has appealed very much to General Butterfield is that the celebration shall continue three instead of two days, the third day to be civilian day, the second a land parade day and the first a naval parade day.

Storm in Chile.

Santiago, Chili, July 18.—Tremendous storms have destroyed bridges and prostrated telegraph wires, interrupting communication with the rest of the country.

Death of an Author.

Natick, Mass., July 18.—Horatio Alger, the writer of boys' stories, died at the home of his sister, Mrs. Amos Cheney, here.

Foqua, and Second Lieutenant Roland S. Pike; Thirty-third infantry, Fort Sam Houston, Texas, Second Lieutenant Charles L. Willard.

Some Quit and Some Work.

New York, July 18.—Two hundred and fifty freight handlers of the New York, New Haven & Hartford railway at five piers on the East river, went on a strike. The men who get 17½ cents an hour demand 25 cents per hour. One hundred employed on the Central Vermont Railway company's pier on the East river went to work, their demands having been granted. The regular men originally got \$50 a month and 25 cents an hour for extra work at night and on Sunday.

Bradley Doubts the Story.

Frankfort, Ky., July 18.—Up to noon Governor Bradley has heard nothing concerning the reported Clay county killings, though he has correspondents in Clay county and Laurel county whose business it is to notify him of such happenings. The governor has wired Laurel county people, but no answer has been received. He believes there is nothing in the story.

Suffered From Cold.

Louisville, July 18.—Thomas M. Noles, who left New Albany 15 months ago to take a position as chief engineer on one of the steamers of the Alaska Navigation company plying in the Yukon river has returned to his home a raving maniac, his insanity having been caused by suffering from cold in the northwest.

HINTS ON FARMING.

Conductor Throckmorton's Addition to Republican Campaign Literature.

[Enquirer.]

FRANKFORT, Ky., July 17.—Senator Deboe has been much annoyed by statements of irresponsible persons intended to belittle the agricultural knowledge of Captain Throckmorton, the Republican nominee for Commissioner of Agriculture. Senator Deboe says that a man of Captain Throckmorton's natural ability, when placed in a position of public trust, is bound to acquire at once a fund of special knowledge that will better fit him for the performance of his high duties than will the fruits of any mere practical experience.

To draw a comparison in Senator Deboe's own perspicuous language, "What did me er Hanna know about legislatin' when we was elected?"

However, with one of those master strokes of political genius for which he is noted, Senator Deboe has taken steps to set at rest forever the question of Captain Throckmorton's ability to fill the office of Commissioner of Agriculture. He has requested him to write a collection of agricultural suggestions for publication over his signature in the Republican campaign book. A friend of Senator Deboe, who is authority for the statements in this dispatch, has furnished The Enquirer with the advance sheets of Captain Throckmorton's essay, which is as follows:

"Hints on Farming," by J. W. Throckmorton, A. B. L. and N., &c.

Potatoes.—No preliminary survey is necessary in installing potatoes. Run your line without regard to grade, terminals or way stations. Put in your potatoes about a foot below the roadbed and ballast thoroughly. Good results are bound to follow if you guard against washouts and landslides. If vegetation appears do not allow your section men to cut it down. This is important.

The Care of Milk Cows.—Milk cows are usually milked once a day, when they come in to get their feed. If they don't come in send out a tracer. In case the milk is sour on delivery put in a claim for damages on account of delay in transmission. A very good plan to follow in milking is to run each cow into a separate siding in your barn and then pump out her tanks. To avoid confusion hand each cow a berth check as soon as she is milked. Then let the porter make her up for the night.

Care of the Health.—A farmer cannot be too careful of his health. While running a reaping machine always shut off steam on heavy grades, and throw on the air at once if she jumps any on the curves or rough track. A good plan is to reverse her whenever you get a whistle for down brakes, and then hold on hard. These little precautions may prolong your life. Another thing which will be of great benefit to your health will be to eat regularly. Get lunch if you can't get a regular meal. A very good lunch is a can of oysters, two pieces of pie and a glass of milk.

Watermelons.—In planting watermelons it is best to select ground near one of the company's tanks, where water is handy. After the vines appear above ground keep a clear track ahead and give them right of away over all vegetation. When nearly matured it is best to give the night yard watchman orders that all persons of color must be kept off the company's right of way.

Hay.—Hay is one of the most profitable crops grown. Select a hay field along the company's right of way. When the fruit ripens send word to your friend, the engineer. He will operate his blower, and the engine will send a shower of sparks into the hay. Send in your bill to the company, and when you collect don't forget your friend, the engineer.

WEEKLY CROP BULLETIN.

The Recent Rains Came in Time to Prevent Serious Damage by the Drouth.

Fairly cool weather marked the beginning of the week, but it soon turned warm and continued so until its close. Very dry weather prevailed until Sunday afternoon, when copious showers visited nearly all parts of the State. Previous to this, the drouth had become very severe and a growing crops were suffering very seriously, except in one or two of the extreme northern counties. In some localities in the western and central portions where the drouth was most severe, water for stock was becoming scarce.

Wheat, oats and hay were generally secured before being affected by the drouth, but corn, tobacco and garden vegetables were needing rain to save them from failure.

Wheat has been threshed under very favorable conditions and the quality is generally good, but the yield is even lighter than was expected, probably but little more than half a crop. Oats are being harvested and a fairly good crop is reported. Fruit promises to be a very poor crop in most sections. Pastures were failing rapidly before the rains, but will now improve.

CLARENCE MATHEWS, P. M.

Lost cow at Coughlin's stable.

THE Rev. Chas. R. Hyde, of Richmond, Va., will preach at the Central Presbyterian Church to-night. All are cordially invited.

In the County Court Monday Fred Brown resigned as overseer of roads in district No. 3, Dover precinct, and W. Perrine Osborne was appointed his successor.

The protracted meeting at Lawrence Creek Christian Church is still in progress. Additions at most every service. Rev. Mr. Gebbe, of Orangeburg, will will preach this evening for the pastor, Rev. Geo. H. C. Stoney. Baptismal service at 7 o'clock this evening.

Mr. M. R. BURGESS, who recently went to Missouri, is now pleasantly located in the town of Burgess, that State. He writes that their building will be completed this week and supplies furnished the miners when the store is opened. Coal is being mined and there is great demand for lots; twenty-five houses could be rented now and the miners are living in tents. The climate is delightful.

The horse recently stolen from Mr. E. P. Pogue, of Mayslick, has been recovered through the efforts of Mr. Otho Benz, Town Marshal at that place, and Mr. Ben Myall. The animal was traced to Carlisle, where it had been sold to a horse trader. It then passed through several hands, a man named Miner, from Republican Church, Harrison County, being the last trader to buy. He brought the animal to Mt. Olivet to trade Monday, court day, and Mr. Pogue going there identified it as his property.

DOWN IN CUBA.

"Col." Cooper Burgess of the Eighth Cavalry Enjoying Himself and Is Pleased With the Country.

The many friends of "Col." Cooper Burgess will be glad to hear from him through the following letter to his parents:

PUERTO PRINCIPLE, CUBA.

June 30, 1899.
 Dear Father and Mother: I would have written you long ago, but we have been traveling a great deal. We went from Governor's Island to the transport Dixie, and we were six days on the water. Had a fine trip.

We first came to Mantanzas, that is about 300 miles from Havana. We got to Havana about 6:30 p. m. Passed Morro Castle and were within 150 feet of the wreck of the Maine. Left Havana for Neuvidas about 8:45 a. m. and took the train at 12:10 for Puerto Principe; reached here at 5 o'clock. The trains all burn wood. On the way the Lieutenant showed us about ten block houses that had been burned by the soldiers.

We have splendid quarters and as nice a lot of officers as you would like to meet.

The first pay day I'm going to have my picture taken and send it to you. We have nice barracks, and get all the magazines from the States. They paid the Cubans \$75 for every gun that was turned in, and they are having a big time on the money. I have not eaten of the fruit here and do not intend to. You can go about in the yard and see coconuts and bananas growing. We have concerts every Monday by the 8th Cavalry and every Thursday by the 15th Infantry. I am enjoying good health.

There is strong talk of us going back to the U. S. in the fall. Any way, I do not intend to stay but one year. You can buy your way out for \$120 and I am going to deposit money with the paymaster each month. Corporal and myself went down to the Catholic Church. The fixtures are solid gold, and it is said to be the finest church in the world. I went over to the Cuban prison the other night, and there are prisoners there who have been in for years. We went down to Santiago the other day investigating the telegraph line. It is the prettiest place I ever saw.

I am going to send you one of these straw hats. They are broad like a cowboy hat and they say would cost at least \$15 in the States. It is all stuff about this country being so unhealthy. The U. S. has gotten the Cubans at work cleaning up the streets, and in a few months it will be a fine city. Love to all. Am pretty well.

Yours truly
 "COL." COOPER BURGESS,

Electric Park.

Go out to-night and enjoy the excellent performance given this week.

The show opens with Miss Bradford in some late songs and she "certainly do know how" to sing coon songs. She was followed by Mr. Nunn in an eccentric song and dance, then Gross and Buskirk in their musical specialties introducing many different instruments, including several novelties. Mr. Gross in his "slight of hand" work was clever and Mr. Buskirk's dancing was good. The program closed with the nonpareil duo, Munn and Bradford, in a pleasing sketch which was full of catchy singing and funny repartee.

Go out and you will want to go again before the week's close. Fifteen cents is the price for admission and a delightful car ride. Reserved seats and admission tickets on sale at Nelson's.

T. J. WINTER & Co. want 100,000 bushels of wheat and will pay highest market price for it.

Red Hot From the Gun

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felons, corns, skin eruptions. Best pile cure on earth. 25 cents a box. Cure guaranteed. Sold by J. J. Wood & Son, druggists.

Distributing Dividends

In summer fabric. This is part of our partnership with the public. Advantage we gain we share with you. More than this we often give you benefits in which we have no part. This selling of summer fabrics gives instances of both situations. Some of these we bought cheaply—you share. Some of them we are selling cheaply, without regard to the way we bought them—you gain.

12 1-2c. Batiste at 7 1-2c. Yard.—Printed Batiste in twenty fetching designs, copied from choice patterns of Lyons silks. Intended by the makers to sell for 12 1/2c. at least.

50c. Mousseline de Soie at 39c. Yard.—New, stylish; two threads silk—just enough cotton to give more body than chiffon. Buy now for the party gown you'll need next winter, the pretty theatre or dinner waist.

50c. Challies 25c.—Printed Challies—pleasant and attractive for "out" wear now, dressy for "in" wear during the winter. Cost less than many cotton fabrics. All wool, full thirty inches, 25c. cheaper than you could buy them in the Cincinnati market.

50c. Silks 25c.—Pretty floral, stripe, check and plain patterns. Every yard you get will be a happy reminder of the money saved at Hunt's.

18c. Novelty Zephyrs 10c.—You haven't seen a richer or prettier wash fabric this season. Eighteen different color combinations, each one a gem. We've tested them with soap and water—they're fast.

TO PROTECT THEIR TRADE.

Mr. John F. Pogue at the Head of a Movement to Unite the Independent Distillers.

A meeting of all the independent distillers in the State has been called for some time in August for the purpose of taking some action to protect the interests of distillers not in the combine. It is likely that an association will be formed, which will endeavor to reach some agreement with the trust relative to the production during the fall of this year and spring of 1900.

It is recognized that some action is imperatively necessary to limit the output during the coming season. It is estimated that unless some agreement is reached the output will reach 30,000,000 gallons, which would be ruinous to the trade in its present condition, says the Louisville Dispatch.

The call for the meeting was issued by Mr. J. F. Pogue, of the H. E. Pogue Distillery Co., this city. He has sent the following circular to every independent distiller in the State:

Gentlemen: The "outside" distilleries of Kentucky cannot afford to take a back seat and allow the trade to remain in a state of uncertainty as to the future. We submit that it should not be left to any single party to define the policy of making whisky, nor, on the other hand, should the entire burden and responsibility of the business rest on the shoulders of one concern. We are joint and equal factors. We should get together and invite the co-operation of the Kentucky Distilleries and Warehouse Company, or the more recent combine, now controlling about 50 per cent. of the capacity of the State, to define the purposes of all parties with reference to production, etc. It behooves us to act promptly and in unison, and thus sustain the strength of our present position.

A meeting of the houses above mentioned is therefore invited for some time in August at the Galt House, Louisville, Ky., in order to select and appoint a capable committee empowered to represent the "outside" houses in any conference or conferences which may be held with the "trust" concerning these matters. Kindly communicate with yours respectfully,

JOHN F. POGUE.

Mr. Pogue had at first set August 15th for the meeting, but as this would conflict with the national meeting at Milwaukee, it was decided to change it. The exact date has not yet been fixed, but it will probably be late in the month. The project, it is said, has so far met with general favor.

It is not the idea in forming this association to fight the trust, but simply to arrange for the protection of the trade's interest. It is not unlikely that the new organization may absorb the present Kentucky Distillers' Association, concludes the Dispatch.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

OUTLOOK ENCOURAGING.

The Good People of Maysville Will Rejoice To Know the Y. M. C. A. Is To Continue Its Work Right Along.

The Board of Directors of the Young Men's Christian Association held a meeting at the rooms last evening which was one of the most satisfactory in the history of its work here.

Reports were made by the soliciting committees and while the entire amount needed for the year's expenses has not been secured, yet the outlook was so encouraging that it was unanimously decided to continue the work and to make it increasingly useful to the young men of Maysville. This work has come to be a permanent feature in the life of the city and is in a more satisfactory condition than it has been at any previous time.

Mr. W. G. T. Baker, the faithful General Secretary, was granted a month's vacation by the directors and will leave for his home in Missouri in a few days. During his absence Mr. H. E. Gabby will have charge of the work, which will be conducted as usual.

Too Extravagant.
Washington's steward once purchased the first shad of the season for the president's table, as he knew his master to be extravagantly fond of fish. He placed it before Washington at table as an agreeable surprise. The president inquired how much he paid for the shad.

"Three dollars," was the reply.
"Take it away," commanded Washington rather sharply. "I will not encourage such extravagance in my house."—Pittsburg Dispatch.

Oil Still Flowing at Flemingsburg and an Expert Pronounces It of Fine Quality.

FLEMINGSBURG, KY., July 18.—The oil excitement is on the increase here to-day. Geo. P. Meiley, of Lima, O., arrived this morning and pronounces the oil to be of very fine quality, and like that which characterizes all the best oil wells of Pennsylvania.

He will not give his opinion as to the quantity, but will go over the ground surrounding the city and investigate. The oil is still flowing as strong as ever.

The Gazette says: "The old well back of the Dr. J. C. Waugh property began bubbling up gas Sunday and attracted quite a crowd. The odor of gas was strong and the sound can be heard nearly 200 feet away. The water tastes of oil."

EAST LIMESTONE.

Mrs. Emral has returned home from Cincinnati.

Mrs. Margaret Williams is visiting her daughter, Mrs. Albert Kidder, of Maysville, this week. The family of Mr. Ken Stickley, of Maysville, spent Sunday with Henry and Miss Kate Williams.

The recent rains have benefited the crops very much, as the late drouth was becoming quite serious.

Mrs. Moreland has returned home after a few days visit with her daughter, Mrs. Daly, of Maysville.

The Taylor brothers are threshing the wheat crop of this neighborhood this week, which almost completes their tour for this season.

Mr. and Mrs. Daly and son, Tilford, and daughter, Miss Adah, of Maysville, and Miss May Menden, of Mt. Olivet, spent Saturday and Sunday with relatives here.

Miss Ada Frisette, of Pleasant Valley, Nicholas County, who has been visiting her grandparents, Mr. and Mrs. Jacob Reed, and other relatives, of Limestone and Maysville, was a pleasant guest of Miss Jennie Rains the past week.

Died, at the home of Mr. and Mrs. Thomas A. Williams, July 9th, their infant daughter, Alma Jane, aged nine days. The little one was attacked with spasms Saturday evening previous to her death, and medical aid being powerless she suffered untold agony until 12 o'clock Sunday night, when the little spirit took its flight to God who gave it, and who in his infinite wisdom saw fit to transplant this tender bud to blossom in a brighter clime. The remains were laid to rest in a quiet spot in the family burying-ground, where the winds whisper sad requiems and the birds warble sweetly over the new-made grave. The parents have the sympathy of the neighborhood in their sorrow, but how empty are broken words of sympathy and consolation to a heart that the Saviour only can heal.

Well we know this little flower,
So briefly enshrined with a mother's care,
Transplanted by angels to a brighter clime,
Is blooming in the heavenly garden bright and fair.

Then, parents, remember the promise sweet
Given to those that obey and love—
Remember the parted will meet again
In that heavenly home above.

Why shouldst thou wrap thy soul in sorrow
To grieve and sadden those around,
When we can by faith look beyond the tomb
Where stands our loving Saviour with outstretched arms?

Then close the little casket
And place it beneath the sod,
Fold the little hands across the breast—
Your darling child is with God.

Place on the little grave a flowery wreath,
Embalmed with fragrance sweet,
And angels from their starry home
Will ever a watchful vigil keep.
Though a mother's heart is sad and lone
And oft with tearful anguish pine,
May she bow her head in humble prayer
And say, "Thy will be done, not mine."

Relief For Flood Sufferers.

Washington, July 18.—The appeal of the citizens' committee of the District of Columbia asking for aid for the Texas flood sufferers is being rapidly answered in a substantial way. Treasurer Edison has received nearly \$1,000, which will be forwarded promptly to Governor Sayers.

Newport, R. I., July 18.—The Newport Yacht Racing association has decided instead of a single cup for the races by Columbia and Defender to give three cups, a cup to be won outright after each race.

TIM HOGAN

Agrees to Return to Ohio and Serve Out His Sentence.

New York, July 18.—Timothy J. Hogan was arraigned before United States Commissioner Shields and agreed to return to Ohio where he is wanted to serve out four years of a five years' sentence in the penitentiary at Columbus for robbing street letter boxes in Toledo. Hogan escaped from the penitentiary at Columbus two months ago. He was captured at the home of his mother in this city.

Maccabees in Session.

Port Huron, Mich., July 18.—The eighth biennial review of the supreme tent, Knights of the Maccabees, opened with 85 delegates in attendance representing nearly every state and the Canadian provinces. The report of Supreme Commander Markey shows a net increase in membership during the biennial period of 43,485. The Ladies of the Maccabees also opened their convention. The ladies have 45 representatives at the convention.

Return of Miss Barton.

New York, July 18.—Miss Clara Barton of the Red Cross society arrived here from Havana on the steamer Havana. She and the other passengers were detained at quarantine on account of the vessel having come from a yellow fever port. Miss Barton said Red Cross affairs in Cuba are in excellent condition.

Gold From Klondike.

Seattle, Wash., July 18.—The North American Trading and Transportation steamer Roanoke arrived here from St. Michael's, Alaska, with between 500 and 600 passengers and two or three million dollars' worth of gold dust. The lowest estimate is \$1,750,000 and the highest \$3,300,000.

Properties Transferred.

Milwaukee, July 18.—Receivers Henry F. Whitcomb and Howard Morris formally transferred all the Wisconsin Central properties of which they have had charge since September 27, 1898, to the new company, the Wisconsin Central Railway company.

Instructed to Hunt Robbers.

Depver, July 18.—Superintendent Charles H. Young of the Wells-Fargo Express company said that the posse in pursuit of the outlaws in New Mexico, with whom a battle was fought, had instructions to run the burglars down regardless of the time required. There are 20 officers in the party.

Rhodes at Capetown.

Capetown, July 18.—Mr. Cecil Rhodes, formerly premier of Cape Colony, arrived here. He was welcomed by a reception committee composed of influential citizens and enthusiastically cheered as he traversed the street.

What does it profit a woman if she gain the whole world of knowledge and lose her own health? Young women students, and school teachers, eager, ambitious, and full of energy, often neglect their health in the struggle to gain education. They eat insufficient food, and at irregular hours, they allow irregularity of the womanly functions to be established, and the result is that they become chronic invalids with all their education practically worthless. There is a plain road back to health for such as these, marked by the feet of thousands. It is the use of Dr. Pierce's Golden Medical Discovery for diseases of the stomach and digestive and nutritive organs, and Dr. Pierce's Favorite Prescription for diseases of the delicate organs of womanhood. A cure so certainly follows the use of these remedies that out of hundreds of thousands who have tried the treatment, ninety-eight in every hundred have been perfectly and permanently cured. Constipation, with its calamitous consequences, which is a common ailment of students, can be entirely cured by the use of Dr. Pierce's Pleasant Pellets.

LOST—Thursday a plain gold ring with name "Duke" engraved on inside. Finder will please return to this office. 18-2dt

Will Dredge the Deep Sea.

Sydney, C. B., July 18.—The steam bark Diana, Captain Bartlett, has arrived here from St. John's, N. F., for the purpose of provisioning and loading for her northern voyage. The relief expedition will be accompanied by Professor William Libbey and several members of the Princeton faculty. The party will conduct scientific investigations, principally in the deep sea, dredging far below the depths of 500 fathoms.

Claim of Mrs. Peyton.

Spokane, Wash., July 18.—Mrs. Helen M. Peyton, who has for years conducted a restaurant in Denver, has entered suit here for \$500,000 claimed to be one half of the estate of Colonel Isaac N. Peyton, president of the Exchange National bank, who sold an interest in the Leroy mine at Bossland, B. C., last year for \$800,000. Mrs. Peyton sues for dower rights.

To Construct a Passage.

Rennes, July 18.—Work was begun on the construction of a passage from the cell of Captain Dreyfus to the hall in which the court martial, before which he is to be tried, will sit. This will enable the prisoner to escape the annoyance of observation by the curious.

Throws In Prison.

Havana, July 18.—Father Salinos, a Spanish priest, has complained to the Spanish consul here that while passing through the town of Jovellanos, he was arrested and thrown into prison where he was detained several hours without any known cause.

Rev. McDonald Honored.

London, July 18.—The Rev. Frederick W. McDonald, uncle of Rudyard Kipling, has been elected president of the esleyan conference.

RUGGLES

CAMP MEETING.

The meetings on these beautiful and much improved grounds will be held

July 26 to Aug. 6.

Eminent Divines will be present this year. Rev. W. B. Collins, D. D., of Louisville, Ky., and Rev. D. H. Moore, D. D., of Lexington, Va., will preach on the Sundays, and the Ministers of the Ashland and Covington Districts will also be present. Splendid singing in charge of Prof. Richardson will be a feature. A splendid addition has been made to the hotel, giving ample accommodation to all. The promenade grounds have been extended, a new stable built and many other improvements made, the grounds are beautiful, and best of all there is an abundance of pure water—two large cisterns, three wells, one of which is 150 feet deep, the water of which we have had analyzed, and it contains the following medicinal properties: Total solids, 3.6 to the liter; soluble salts, 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts, 0.44 to the liter; consisting of calcium carbonates with traces of iron.

Children's hour every day at 1:30 p. m., in charge of Mrs. J. H. Dodson.

The hotel will be in charge of Wallingford, Edmunds & Harding of Maysville; stables, J. L. Foxworthy of Mt. Carmel; baggage-room and barber-shop, Dale & Hamrick.

The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington and Ashland Districts.

Anyone desiring cottages write I. M. LANE, Maysville, Ky.
